All the features of the **material**

Hypoallergenic (antiallergic): it does not release nickel, it does not cause reactions on the skin

Eco-friendly: it does not release harmful particles in the environment and it is **recyclable**

Warm malleable: it can be engraved

Resistant: scratchproof, indestructible and non-deformable

Easy to maintain: stainless steel develops itself a transparent film that forms a barrier of protection against any external factor that can cause oxidation, and consequently maintains its brightness over time.
