

GEOMETRIA COLLECTION

**Brass buckles
Geometric Design
Made in Italy**

LINES SPACES HARMONIES

The Geometria collection combines contemporary design with **artisanal** craftsmanship.

The milling process is carried out using a **pantograph**, a precision machine that performs cuts accurate to a hundredth of a millimeter, creating customizable and elegant details.

The buckles are entirely **produced in Italy** and crafted from **solid brass**, a high-quality material known for its resistance to wear and its ability to maintain brilliance and consistency over time, offering a range of **color variations**. Our buckles can also be made **nickel-free**.

They are tested according to European standards to ensure comfort, safety, and a distinctive touch.
